iOS · Android · iPad
Mac · Windows · Linux

FULL SPECIFICATIONS

Model	HPRT MT800
Resolution	300 DPI
Technology	Thermal transfer — inkless (uses ribbon)
Paper	A4 / US Letter · up to 216mm (8.5") wide
Battery	2600mAh · ~70 sheets/charge · 26-hr standby
Charging	USB Type-C
Connectivity	Bluetooth 3.0/4.0 · iOS/Android/iPad
Computers	Mac · Windows · Linux (not Chromebook)
Ribbon	~45 sheets per thermal ribbon

Know this for the live: the MT800 (300 DPI) uses a **thermal ribbon** inside (≈45 sheets each) — still no messy ink, but the ribbon is a consumable, unlike the direct-thermal 203 DPI MT610 which uses only special paper. Glossy-surface paper gives

the sharpest results. Confirm ribbon/paper included in *your* box.
