

What it is: A **3,584Wh LiFePO4** powerhouse with **3,600W output** — enough to run a whole home's essentials during an outage, power a job site, or go fully off-grid. Expandable and RV-ready.

3584^{Wh}
CAPACITY

3600^w
OUTPUT

7200^w
SURGE PEAK

~2.5^{hr}
FULL RECHARGE

TOP SELLING POINTS

- ✓ **3,600W output (7,200W surge)** — runs fridges, ACs, power tools, even well pumps
- ✓ **3,584Wh** — whole-home backup for hours, or days of off-grid camping
- ✓ **Recharges in ~2.5 hours** on AC — back to full fast
- ✓ **LiFePO4 — 6,000+ cycles**, roughly a decade-plus of regular use
- ✓ **Expandable** — add battery packs for even more capacity
- ✓ **RV-ready** — built-in TT-30 (120V/30A) shore-power outlet
- ✓ **1000W solar input** — fast off-grid recharging from the sun
- ✓ **Quiet & fume-free** — safe indoors, unlike a gas generator

WHAT IT CAN RUN (APPROX.)

- ✂ Refrigerator — **1-2 days**
- ✂ Full-size AC — hours
- ✂ Power tools & pumps
- ✂ CPAP — many nights
- ✂ Whole-room of devices at once

EXPANSION & PORTS

AC outlets + **TT-30 RV** outlet
USB-C (PD) & USB-A
DC expansion for extra battery
AC expansion for parallel use

FULL SPECIFICATIONS

Model	Jackery HomePower 3600 Plus
Capacity	3,584 Wh (LiFePO4)
Cycle Life	6,000+ cycles to ≥70%
AC Output	3,600W continuous · 7,200W surge (pure sine)
Recharge (AC)	~2.5 hrs full
Solar Input	Up to 1000W (dual DC8020, 24A combined)
RV Outlet	TT-30 (120V / 30A)
Expansion	DC battery-pack port · AC parallel port
Weight	~77 lb
Best For	Home backup, RV, off-grid, job sites

Say this right on the live: the 3600W Jackery is the **HomePower 3600 Plus** — there is **no "Explorer 3600."** Confirm exact port counts (USB-C/USB-A/AC), included cables, and whether a solar panel or extra battery is part of *your* bundle before quoting.
