

What it is: A **2042Wh LiFePO4** powerhouse that runs fridges, power tools, and most home essentials — yet it's **lighter than most 2000-class units** and fast-charges in under 2 hours.

2042_{Wh}

CAPACITY

2200_W

OUTPUT

4400_W

SURGE PEAK

~43_{lb}

WEIGHT

TOP SELLING POINTS

- ✓ **2042Wh** — enough to power a home through an outage or a long off-grid trip
- ✓ **2200W output (4400W surge)** — runs fridges, microwaves, power tools, more
- ✓ **LiFePO4 — 4,000+ cycles**, roughly 10 years of regular use
- ✓ **Fast recharge** — empty to full in about **1.7 hours** on AC
- ✓ **Lighter than the 2000 Plus** (~43 lb vs 62 lb) — easier to move & store
- ✓ **Dual 100W USB-C** for laptops; multiple AC outlets for whole-room power
- ✓ Quiet & fume-free — safe to run indoors, unlike a gas generator

WHAT IT CAN RUN (APPROX.)

- ✂ Refrigerator — **all day**
- ✂ Phone — **100+ recharges**
- ✂ Laptop — **17+ charges**
- ✂ Power tools, microwave (short)
- ✂ CPAP for many nights

PORTS

Multiple **AC outlets** (120V, 2200W)
2× USB-C (up to 100W)
USB-A ports
1× 12V car port

FULL SPECIFICATIONS

Capacity	2042 Wh (LiFePO4)
Cycle Life	4,000+ cycles
AC Output	2200W continuous • 4400W surge (pure sine)
USB-C	2× up to 100W
Recharge (AC)	~1.7 hrs full
